1908 Catalogue 1909

NATIONAL TEACHERS' NORMAL
AND
BUSINESS COLLEGE
Henderson, Tenn.
CALENDAR.
1908-1909.

The session is divided into five terms of eight weeks each.

First Term will open Tuesday, September 1, 1908.
First Term will close Friday, October 23, 1908.
Second Term will open Tuesday, October 27, 1908.
Second Term will close Friday, December 18, 1908.
Third Term will open Tuesday, December 22, 1908.
Third Term will close Friday, February 12, 1909.
Fourth Term will open Tuesday, February 16, 1909.
Fourth Term will close Friday, April 5, 1909.
Fifth Term will open Tuesday, April 13, 1909.
Fifth Term will close Thursday, June 2, 1909.

The Annual Commencement, to which many anxious patrons and friends come, will occur on Wednesday and Thursday, June 2 and 3, 1909. During these days the graduating orations are delivered, the diplomas and degrees are conferred, and addresses to the graduating classes by prominent speakers are made.
Examinations will be held the last week of each term, and proper grades of each student given.
High-class Lectures and Entertainments will be given during the session, under the auspices of the Faculty.

1909-1910.
First Term opens Tuesday, September 7, 1909.

BOARD OF TRUSTEES.

J. D. JOHNSON, President .................... Henderson, Tenn.
J. G. HARDEMAN, Secretary and Treasurer .... Henderson, Tenn.
JOHN M'DONALD ............................. Henderson, Tenn.
J. D. SASSER, JR., M.D. .................... Middleton, Tenn.
WALTER E. WARREN ........................ Rives, Tenn.

1908-1909
HENDERSON,

the capital of Chester County, Tenn., has more than 2,000 inhabitants. Out of the many cities and towns that sought to secure the "National Teachers' Normal and Business College," its founders selected Henderson as the ideal school town. It is an historic educational center. It is located on the beautiful, rolling highlands of West Tennessee, and is noted for its healthful climate and varied scenery.

How to Reach It.

Henderson is reached by the Mobile and Ohio Railroad, running from Mobile to St. Louis and intersecting the principal lines of the continent.

Students from the North will change for points on the Mobile and Ohio Railroad (Southern System) at Cairo, Union City, Rives, Humboldt, and Jackson; from the South, via Meridian, Artesia, Lauderdale, West Point, Tupelo, and Corinth.

It is also on a new branch (just opened) of the Illinois Central Railroad, running from Jackson, Tenn., to Birmingham, Ala. Students along any of the lines of the great Illinois Central System, belting our land from New Orleans to Chicago, will be in direct touch with Henderson.

Henderson is easy of access from all parts of our country. There are four daily mail trains that make direct connection with all the principal roads of the Union.

Its Surroundings.

The beautiful surrounding plains, hills, and valleys afford ideal grounds for the field work of our classes in Botany, Geology, Surveying, Zoology, and Astronomy. The town is situated in a forest of young oaks. The neat cottage homes, grassy lawns, and the intelligent Christian character of our citizens make Henderson a choice location.

The very air a student breathes inspires him to a higher and nobler life.

Healthfulness.

The pure air, delightful water, excellent drainage, fine sanitary condition of our town all make the health of our students and citizens without a parallel. No town in all the South can show a better record for health. There are many mineral springs within easy reach of Henderson.

Its People.

Henderson has no manufacturing enterprises, and neither is it a railroad town. These often bring an undesirable class. It is a little city of churches and the home of the National Teachers' Normal and Business College. The citizens are intellectual and hospitable. They always manifest a deep and kindly interest in the students, who are cordially welcomed into our churches, homes, and society.
Moral and Religious Influences.

The moral atmosphere of Henderson is excellent. No saloons within one hundred miles. No low and vicious characters to mar the School body.

Sectarian. Our students are from all denominations and none of any religious profession. They are free to think, choose, and act for themselves. Moral restraints are thrown around all; religious intolerance, around none.

Parents Need Have No Fear

about sending their sons and daughters here. In addition to receiving the advice and special attention of their teachers and of the cultured ladies in the boarding homes, the ministers and all the good people of Henderson take great interest in the success of the school and give much attention to the comfort and welfare of the students.

Break Away from your old surroundings and come to Henderson. The work here will be a revelation to you. You will be encouraged and inspired, and no doubt learn that you are capable of infinitely more than you ever dreamed of. Come and mingle with the hundreds of young men and women from all parts of our land who are themselves seeking an education. This is a grand School for you and a great opportunity.

What to Do on Arriving

Come at once to the Presidents' offices in the College Building. Enter without knocking. Here at Henderson, you will find the Presidents or some other officers of the College, who will kindly receive you and show you every attention. In a short time complete arrangements will be made for housing, boarding, classes, books, etc., and you will be thoroughly and pleasantly settled.

The Campus

is one of the prettiest, fronting Main Street four hundred and fifty feet, extending up to the business part of the city. It has magnificent shade trees for rustic seats, presenting that quiet retreat so necessary for a student in his work.

THE NEW COLLEGE BUILDING.

We can truthfully say that we not only have one of the finest and best college buildings in all the South, but the finest of the best. It is an elegant brick edifice, two stories with basement, finished in buff pressed bricks, trimmed with white dressed stone steps, belts, and keystones, modern in architecture.
NATIONAL TEACHERS’ NORMAL AND BUSINESS COLLEGE,
HENDERSON, TENN.

one hundred and twenty-five feet front by eighty feet deep, seventeen rooms, spacious halls and stairways, large lobbies, magnificent recitation rooms especially designed for light, fine observatory.

The CHAPEL HALL is one of the best auditoriums anywhere. It is eighty feet by fifty feet, with stage in the end, having a seating capacity of twelve hundred. The entire College Building is practically fireproof.

Equipment.

The National Teachers’ Normal and Business College is the best equipped School in the land.
The BUSINESS DEPARTMENT is furnished with new oak tables and easy chairs, the new Fox typewriters and desks.
The CHAPEL HALL is seated with handsome opera chairs.
The RECITATION ROOMS have easy auditorium chairs, teachers’ desks and chairs.
The LIBRARY is a large, airy, well-lighted room, furnished with elegant library tables, chairs, and sectional bookcases.
The PRIMARY, INTERMEDIATE, and PREPARATORY DEPARTMENTS are equipped with the latest new single desks, teachers’ tables, and chairs.
The MUSIC ROOMS have the best of pianos and other instruments for instruction and practice.

Blackboards.

All recitation rooms are surrounded with the best of Hyloplate blackboards. There are about three thousand square feet of this fine board in the College. Several hundred students can be accommodated at the finest of boards at the same time.

Heating.

The entire College Building is warmed by the latest hot-air system. The fresh air from the outside is conveyed through ducts over steel radiators in the basement; from these through the warm-air ducts and registers into the various rooms. As the warm, fresh air is forced into the rooms, the impure air is forced out through vents prepared in the building. Thus the students and teachers breathe the purest air and feel as fresh and vigorous at the close of day as at the opening. The whole structure is arranged with an eye to the health and comfort of students.

Apparatus.

The very latest and most improved physical and chemical apparatus will be used; charts, globes, maps, and surveyors’ out-
fit: cabinets of weights and measures of all kinds, metric and mensuration. The School will keep abreast of the times in modern appliances.

Everything New.

Think of it! New College Building, new furniture (desks, chairs, tables, opus), new apparatus, new typewriters, new pianos, new heating, new blackboards, new everything. These are a part of an education. A student looking for a place to go to school, at which he will spend time and money, should seek the place that can give him the most. His environments cannot be overestimated. The impressions made by them are lifelong.

Library.

The Library is a large, well-lighted, comfortable room, and is at the service of all the students of the College. It will contain carefully-selected volumes, including encyclopedias, dictionaries, scientific, educational, literary, religious, and miscellaneous works.

The Library is a favorite resort of the pupils for reference and study. It will be in charge of a Librarian, whose duty is to keep perfect order, and to assist the student in selecting the volumes desired.

Ladies' Homes.

Parents need have no fears about sending their daughters here, as they are under the care of experienced and cultured ladies, who give them special attention. Remember that the ladies are not put in boarding halls or dormitories, but they have elegant homes kept by our best families.

Accommodation for Ladies.

Rooms are neatly furnished with dressers, washstands, beds and bedding, chairs and tables, water pitchers and bowls, lights, and every convenience to make a home for ladies one of comfort.

Students are required to furnish nothing; see furnish everything.

No other school in the land gives the accommodations we do for the money; in fact, many other schools with inferior accommodations charge three or four times as much as our actual expenses.

Special Proposition to Ladies.

One hundred thirty-nine dollars ($139) will furnish you a home complete—board, rooms, fuel, lights—and tuition for one year of ten months in the National Teachers' Normal and Business College; one-half paid at the opening, balance at the end of five months.

Every influence of refined and cultured homes is thrown around our students.

Special to Gentlemen.

One hundred thirty dollars ($130) will pay your board, rooms, fuel, lights—home complete in our best places—and tuition for one year of ten months; one-half paid at opening, balance at the end of five months.

Parents and pupils will readily see the advantage afforded by surrounding all the pupils with this home-like influence.

Young men are received as members of the family. Their accommodations are all that could be desired. Nearly every home in Henderson is a home for one or more students.

Favorite Propositions.

These special "year propositions" have long been the favorite among parents and students. They are able to know exactly the cost of a year, and are saved the trouble of looking up homes and frequent payments. These are done by the Faculty. Besides, should a student be unable to go the year after accepting the "year proposition," his board money will be refunded.

The Faculty.

We have a strong Faculty of ten to twelve regular instructors. Our teachers are thorough graduates of the leading schools of our country. They are especially chosen for the place they fill.

We have no students paying their way by teaching.

Departments Sustained.

Kindergarten, Primary, intermediate, Preparatory, Teachers', Literary, Scientific, Classic, Psychology and Pedagogy, Engineering, Education and Oratory, Bible, Musical, Commercial, Shorthand, Typewriting, Select, Postgraduate, and Review.

Advantages.

The Institution offers, for one tuition, a greater list of subjects from which the student may select his studies than any other school in the land.

Students can enter at any time and find classes to suit them.

Accommodation are the best; expenses, a minimum.
Private Instruction.

We have a room set apart at all hours for private instruction. The teachers are not only ready, but glad of the opportunity to render such assistance. There are many who say: "I would enter school, but I am so far behind." They can come here and have this private help, and in a short while enter classes composed of students of their own age and advancement. Many of our most successful students have done this. The advantages thus offered can never be overestimated.

Literary Societies.

From six to eight societies are sustained each term of the session. All societies are under the special charge of experienced instructors, who suggest questions for debates, point out books and papers in the library which treat upon these questions, and give kindly supervision to the whole work, and special instruction in parliamentary rules and the best usage in public debates. This training places our students in the lead in all public enterprises, makes them expert parliamentarians, and gives them power on the rostrum.

Reunions.

Reunions are given at stated intervals during the session. The parents, citizens, and teachers always attend these gatherings of students and participate in their joys. The object of these reunions is to give the students an opportunity to cultivate mutual acquaintance and improve social usage and personal bearing. The programme of these social gatherings varies, consisting of Music, Declamations, Charades, Drama, and Conversation.

Coeducation.

Both sexes are admitted with equal rights and privileges in every respect. It makes school government easy and pleasant. Young men become purer and manlier; young ladies, more confident, more self-reliant, more appreciative of their true dignity and worth. That education is incomplete and dwarfed in the extreme which has been secured in a school separate and distinct from either sex. There can be nothing more ennobling and refining than the association of ladies and gentlemen under proper restrictions and in the care of responsible instructors.

In the schoolroom our students are taught to be sociable, kind, gentle, and courteous to all.

There will be no associations of ladies and gentlemen outside of the class room.
National Teachers' Normal and Business College, Henderson, Tenn.

Remember, when you leave the schoolroom, time and money being gone, that which you have received is your capital. That capital should be such a vast store of useful knowledge—of mental, moral, and physical culture—that every step amid the realities of life is crowned with success.

For Whom Our College is Designed.
1. Age or advancement shall be no one from the privileges of this School.
2. All for the poor and rich.
3. For all wishing to succeed in any calling.
4. For those looking forward to a business life.
5. For those desiring a higher grade certificate.
6. For all who were debarred from an education in early manhood or womanhood.
7. For those desiring to be special teachers in any branch of study.
8. For all who desire to begin, continue, or review any course of study.
9. For any one desiring a thorough collegiate education.

To Parents and Guardians.

The best gift a father can bestow upon his children is the gift of a good education. Money given to an uneducated or ill-educated child is sure to be lost, and with it his character; but a good education is inestimable. No one can rob the possessor of his inheritance. It is a noble bequest.

The well-educated do not gravitate to the almshouse or to the penitentiary. The best provision a father can make for himself or wife in old age is a good education given to his children. A child well equipped in mind, strong in will, rich in love, is the best annuity and the best life insurance that parents can have.

College Bookstore.

We will have a complete Bookstore in the College. Here the students are supplied with all kinds of text-books, tablets, pencils, pens, ink, paper, and everything found in a first-class bookstore. This is a great convenience to our students and an accommodation to our patrons. We supply any book published.

Text-books.

Bring all the books that you may have; you will need them for reference. Wait until you come to purchase others.

Arrangements will be made to supply you with such books as you may wish at the least cost possible. All kinds of good text-books are used.

Truth is sifted from error.

Our Own Books.

The following of our own books will be in use by our classes at the opening of school: "Methods in Arithmetic" and "English Grammar—How to Teach It," by President A. G. Freed; "Outlines of the Bible" and "Outlines of United States History." Prices. "Methods in Arithmetic," single copy, prepaid, 35 cents; "English Grammar—How to Teach It," single copy, prepaid, 35 cents; "Outlines of United States History," single copy, prepaid, 35 cents; "Outlines of the Bible," single copy, $1.

Diplomas.

The institution is regularly chartered, and confers the usual degrees upon its graduates. The time required for the completion of any one of the courses of study depends entirely upon the previous preparation made by the student. "Our diplomas mean something. We are determined to hold high the standard of education."

Kindergarten and Primary Department.

"The earliest age is the most important one for education, because the beginning determines the manner of progress and the end."—Frederick.

This department is under the direct charge of Mrs. A. G. Freed, a teacher of experience and success. The idea that "anybody can teach the primary grades" has been fatal to our schools. It is here that our best talent is required. This department will occupy one of the prettiest rooms in the College. The elegant Kindergarten and Primary furniture, the nicely warmed room, the pleasant light, and superior teaching are advantages offered to parents here that can be found nowhere else.

The work in this department embraces a period of three years. The Kindergarten, First, and Second Grades are sustained.
The subjects taught are Kindergarten Work, Chart, Reading, Spelling, Writing, Oral Arithmetic, Language Talks, Drawing, Vocal Music, and Physical Culture. Lessons introducing Literature and Nature will be given. Stories from the Bible will be studied.

Intermediate Department.

The teacher of this department is Miss Bennie Bondurant. She is a scholar of rare accomplishments, an instructor especially adapted to this work, and a teacher of successful experience.

This department will include the Third and Fourth Grades. The neat new room and furnishings, discipline, and fine instructions are inducements held out to parents who want the best for their children.

The work will be graded and each student properly classified.

The State text-books will be used as far as practicable.

The branches taught are Reading, Writing, Spelling, Drawing, Arithmetic, History, Geography, Language, Grammar, Vocal Music, and Physiology.

Here the foundation for an education is laid, leading up to our Preparatory School.

COLLEGIATE DEPARTMENTS.

The National Teachers' Normal and Business College sustains twenty different departments. Its regular seven-years course, however, is found in the Preparatory School, or Freshman; the Teachers', or Sophomore; the Scientific, or Junior; and the Classic, or Senior. Each of these departments is, in a measure, complete in itself. Each course of study prepares thoroughly for the one following. In all the departments the laws of mental growth are carefully considered, and suitable lines of work laid out.

The completion of any one course of study is necessary before entering the succeeding.

Preparatory School, or Freshman Course.

This department is under the immediate supervision of G. C. Wharten, a teacher of broad culture and fine experience.

The other teachers will assist him.

The students in this department have a magnificently furnished room on the second floor.

We recognize the value of right beginning one's education, and have, therefore, arranged our classes so the most thorough work may be done by those who are just laying the foundation for their collegiate education. Those who take our Preparatory School have at the same time something practical for the affairs of life and a basis for higher training. Should they go out into life at the close of this course, they have a valuable discipline for many of the obligations resting upon them; should they go forward into the higher courses, they have a solid basis upon which to build.

Preparatory School.

The branches included in the Preparatory Department, are:

Reading, Penmanship, Spelling, Arithmetic, Grammar, United States History, Geography, State History, Physiology, Mental Arithmetic, Reading Circle, Composition, Debating.

The time required for the completion of this course of study is from one to two years, depending upon the ability of the student, his advancement at the beginning, and the amount of work placed upon it.

Teachers' Course, or Sophomore.

This is one of our special courses of study in this Institution. It was the demand for more thoroughly competent and trained teachers that gave rise to the founding of the new School; hence, the name: "National Teachers' Normal."

The Presidents have more calls each year for good teachers than they can supply. The demand is increasing.

Many counties in various States are unable to keep all their schools open because competent teachers are not obtainable.

The College offers one of the strongest and most fascinating Teachers' Courses to be found. We take pleasure in inviting comparison.

The completion of the previous course is necessary for entrance in the Teachers'. Young people, now is the time to prepare yourselves for teaching.

Yes, the position is ready. Are you?

A glance at our Teachers' Course of study will show any one the strength of our graduates from this department. Here is organized, the last two terms of the second year, our great "Teachers' Training Class," which has done so much for our teachers in the past. This is a continual Teachers' Institute for sixteen weeks.

To those desiring to teach in any State can take any branch in which they must be examined.

The student is permitted to take a select course.

Our methods alone are worth your time and expenses here. The best teacher knows there is as much in the "How" and the "Why" as there is in the "What."

All who complete the Teachers' Course are awarded a Diploma and the Degree, Licentiate Instructor (L.I.).
Scientific, or Junior Course.

Students must complete our Teachers' Course of study, or its equivalent, before being admitted to the Scientific Department. The Scientific Course is one of the strongest and most satisfactory offered by any college. Students who complete it have a systematic and harmonious culture. They have the refining and broadening influences of Literature, the acuteness and versatility inculcated through Natural Science, and the strength and earnestness necessarily developed by so thorough a study in the Higher Mathematics. Their Debating and Public Final work develop a grace of speaking which never fails to be of service in raising them to prominence wherever they go. We challenge any one to show us a more efficient Scientific Course in any institution of learning.

All who creditably complete the Scientific Course have conferred upon them the Degree, Bachelor of Science (B.S.).

Classical, or Senior Course.

No one is admitted to the Classical Course of study unless he has finished our Scientific Course. This is the highest course in our Collegiate Department. It especially trains in the power of original research and expression. When one has completed our Classical Course, he has a broad and liberal culture, coupled with such a power of intensive application that he goes from us determined to make something of himself in the great, busy, complex world. He is fitted to live and to act effectively.

Those finishing this Course have conferred upon them the Degree, Bachelor of Arts (B.A.).
NATIONAL TEACHERS' NORMAL AND BUSINESS COLLEGE,
HENDERSON, TENN.

We challenge you to find a better course anywhere for
twice the cost of ours.
We are strictly in the Commercial Age. The farmer, as well
as the banker, should be a bookkeeper.

There is nothing in the land superior to our Business
Department.

SHORTHAND DEPARTMENT.

Miss Ethel Daugherty is Principal of this department.
She is not only a fine teacher, but an expert court reporter.
She has served in this capacity for three years, and has extensive
experience in office work. There are many valuable, practical
things connected with shorthand that cannot be obtained in
school unless given by a teacher of this experience. Students
counter themselves fortunate in having such an opportunity for
shorthand.

Miss Daugherty will do actual work in the College by reporting
lectures and reading in the Auditorium and taking to the student body
at Chapel Exercises.

The famous Gregg System of Shorthand is taught. It is the
shortest, simplest, and most interesting system to be learned.
Both speed and legibility are indispensable to a practical system
of shorthand. They are of equal importance. No matter how
plain it may be, no system is worth learning that cannot be written
at a high rate of speed. On the other hand, it must be clearly
readable, or it is equally useless.

The Gregg System is fast and readable. It can be learned
in less time than any other system.

TYPEWRITING DEPARTMENT.

This department is supplied with the new, light-running
Fox Typewriters. There is nothing superior to them. Some
business schools have cheap typewriters for the use of students.
The Fox Typewriters is a standard, high-class, high-priced
machine—visible writing. Our students are given the best.

Skill in the use of the typewriter is indispensable to every one
who expects to make a successful stenographer. More students
fail to hold good positions on account of their inability to use
the typewriter skillfully than from any other cause.

Typewriting cannot be "picked up." It must be studied and practiced persistently under a competent teacher, logically and scientifically, if proficiency is desired.

A business man judges a stenographer by his typewriting, by
his rapidity and neatness of the production. We are prepared to
give our students all that is the latest and best in Shorthand and

NATIONAL TEACHERS' NORMAL AND BUSINESS COLLEGE,
HENDERSON, TENN.

Typewriting. Our pupils have the advantages of the best and
neatest machines made and an expert operator as a teacher.

Special Propositions.

Shorthand. For $35 we issue an unlimited Scholarship in the
Gregg System of Shorthand. You remain with us
until you are thoroughly qualified to take a stenographic position.
Shorthand and
Typewriting. For $45 we issue an unlimited Scholarship in the
Gregg System of Shorthand and Typewriting.
The time extends until you are accomplished in
both.

Business, Shorthand, and Typewriting. These propositions admit our students to the finest of typewriters, experienced
bookkeepers, and expert operators until they are masters of the
situation.

These courses of study are unexcelled, and we feel sure
no other school can duplicate them at so low a rate.

SCHOOL OF MUSIC.

Mrs. N. B. Hardeman, Principal.
Miss Lennie McAllister, Assists.
Miss Florence Botts,

We have every facility to give a first-class musical education.
Mrs. N. B. Hardeman, the head of this department, is an
accomplished instructor of wide experience. She is assisted by
Misses Botts and McAllister, proficient teachers, who have spent
much time in preparing themselves for the positions they now
hold. All have studied under the best talent and in the best
conservatories of our country.

Our neat, comfortable music rooms, the best of pianos and other
instruments, and the untiring industry of rare musical talent as
teachers, offers courses of study in Music surpassed by no school.

PREPARATORY GRADE—Rudiments: Mason's Touch and Technic,
Books I. and II; Mathew's Graded Studies; Loechorn's Studies;
Major and Minor Scales and Arpeggios; pieces selected that are
best adapted to the advancement of pupils.

ADvanced GRADE—Theory: Mason's Touch and Technic, Books
III. and IV; Mathew's Graded Studies; Heller's Studies, Op. 46;
Fresser's Octave Studies; Cherry's Velocities, Op. 299; and such
technical work as is needed.

Pieces of various styles are selected from the standard and
classical composers. They include the works of Novin, Schu-
mann, Chopin, Mozart, Beethoven, Bach, etc.

BUSINESS DEPARTMENT.

This is another special course of study and training for which the School was founded; hence, the name: "Business College." The calls for reliable men in the business world are numerous. Bookkeepers, stenographers, and typewriters are in greater demand than it is possible to supply.

We realize we can give a better Business Course for less money than it is possible to obtain in the city. Our students not only have a thorough course in all the business studies, but they also have the privilege of taking many other helpful branches in the Collegiate Departments.

We are determined to make our Business Course second to none. We employ the best bookkeepers, the best stenographers, and the best typewriters.

Special Advantages. We offer young men and young women an exceptionally strong Business Course. The President has had long and extensive training and experience in business-college work.

Special Offer. We issue a Business Scholarship for $38. You remain with us until you are thoroughly qualified to take any position as bookkeeper.

Diploma and Degree. A diploma and the Degree of Bachelor of Accounts are granted to all students who satisfactorily complete the Business Course. Taken in combination with the Teachers' Course, the Degree of Master of Accounts is conferred.

Thoroughness. Our Commercial Department is large and commodious, with every external advantage for the best work. Our course of study is calculated to equip any one able to take it with power to meet the issues of a business career with eminent success.
Voice.

MISS LENNIE L. MCAULIFFE, Teacher.

Everyone has musical appreciation in his soul, and a normal, healthy body can learn to sing. This does not mean that everyone can be a Sennrich or a Campenard; but everyone can learn to use his voice so that he can express the meaning of music in such a way as to give pleasure to his hearers.

The course of study in this department has for its basis the method of the old Italian school, to which has been added the improvements made in vocal art by such masters as Lamperti and Garcia.

Course of Study.

Course 1. Exercises in breathing; attitude of the position of the lips, tongue, and soft palate; exercises for placing the voice; connecting tones and articulation; the study of intervals and practice in sight reading; easy songs and ballads by modern composers.

Course 2. Exercises in agility, runs, scales, and arpeggios; supplementary trill exercises; legato, staccato, and slurred notes; the accentuation of Emanuele Garcia, Abbe and Lamperti's vocalization; songs, selected from Schubert, Schumann, and modern composers.

Course 3. Trill exercises continued; embellishments; studies in phrasing and expression; staccato, crescendo, and diminuendo; Lamperti, Rossini, and Sieber's vocalization; songs and simple arias by classic and modern composers.

SCHOOL OF ELOCUTION AND ORATORY.

This department is conducted by Miss Cora Winningham, a teacher of experience and rare accomplishments. She is spending the summer abroad in our best schools accumulating new things for her students the coming year.

Some have an idea that the study of elocution belongs to the girls only; that all they have to do is to recite and entertain friends. The demands of the age call for young men preparing for the farm, the shop, the schoolroom, the bar, the ministry—all to have this culture.

Special attention is given to physical culture, the voice, and the study of expression.

In the study of elocution, the first great object is to have all become good readers, then have them to express successfully what they have in mind.

Students often fail in preparing a lesson because they have been unable to get the thought from the printed page. Many fail in recitation because of their inability to express their thoughts.

DEGREES CONFERRED.

The college is chartered by the State of Tennessee to grant the regular college degrees. All who creditably complete any of our full courses mentioned below have conferred upon them the degrees mentioned with the courses.

In addition to these courses leading to their appropriate degrees, the College offers a diploma for the following: Typewriting, Shorthand, Business, Music, and Bible. Pupils who complete satisfactorily the work in the Primary, Intermediate, and Preparatory Courses will be awarded certificates of promotion. No student in these departments will be promoted without these certificates.

Pupils who complete satisfactorily the work in the Primary, Intermediate, and Preparatory Courses will be awarded certificates of promotion. No student in these departments will be promoted without these certificates.

Regulations.

1. Tuition must be paid one term of eight weeks in advance.
2. A tuition ticket, signed by the President or Vice President, is necessary for enrollment in any class.
3. No money paid for tuition is refundable. An enforced absence from school of two consecutive weeks or more entitles the student to a tuition refund.
4. No duellist or reduction will be given for the last four weeks of the session, for the last two of any term, or for Christmas holidays. All duellists must be called for at time of leaving school.
5. If a student should be compelled to leave school, the money paid for board is refunded.
6. Students who are dismissed for improper conduct forfeit all tuition paid to the College, and can never again be admitted.
Boarding.

Board, rooms, fuel, lights, home complete, at our very best homes at $10 to $12 the month. Boys will pay from $10 to $11 the month; girls, from $11 to $12 the month.

Special Term Propositions.

To Boys: We will furnish you board, rooms, fuel, lights, home complete, everything furnished, in our best Christian homes, and tuition, at $27 for a term of eight weeks.

To Girls: We will furnish you board, rooms, fuel, lights, home complete, everything furnished, in our "Ladies Homes," and tuition, at $29 for a term of eight weeks.

For special year propositions to ladies and gentlemen, see pages 10 and 11 of this Catalogue.

Our boarders should not be compared with that of other schools. We have no "boarding hails" or "dormitories," with their de-moralizing influences. Our students are taken into our best Christian families. They receive all the influence that the culture and refinement of good homes can give. Therefore, do not compare our figures with "dormitory" or "hall" boarding.

Students are not allowed to board except at such homes as have the approval of the Faculty.

Make Your Decision Now.

If you wait until you have everything just as you want it, you may never go to school. The time to educate will not wait for you; neither will the good positions in life. Do not say: "I'll be with you next year." Enter the road to usefulness and success now.

Make no arrangements with anybody for anything until you reach the College offices in the new building. This may save you much inconvenience.

Drop us a card before leaving, and you will be met at the train.

Honest Statements.

In this brief booklet we have given you a fair and honest statement of facts. The tendency of the age is to exaggerate and magnify in advertising. We have tried to avoid that.

We believe that everything is even better than we have represented it; that our new College Building is superior to what you think, that its furnishings are more elegant, that our accommodations are superior, and that expenses are less than what we have told you. If you are interested, let us hear from you.

If not, hand this Catalogue to some one else. You may help some worthy boy or girl.

We were reared in the schoolroom, and have given our lives to teaching. We now come to the greatest work of life—the firm establishment of the "National Teachers' Normal and Business College," an institution that brings a blessing to the boys and girls of our beautiful, sunny Southland.

Upon the altar of this great enterprise we lay our all; to this worthy cause we dedicate our time, our talents, and our best energies.

A Parting Word.

Young man, young lady. If you could only draw aside the curtain and look a few years into the mystic future, new inspiration would seize you. It is a pleasure to encourage you.

There never were brighter prospects for the thoroughly prepared, energetic young man and young lady than now. Wonderful opportunities are yours. Will you grasp them and build out of them a noble life, or shall others advance to the positions intended for you? You must make your decision at once.

We are only too glad to assist you. That we may do so, you must come to us: it is impossible for us to go to you.

Make up your mind to be one of our happy number now.

Remember the opening—September 1, 1908. Students can enter at any time.

Information cheerfully given. Address all communications to

A. C. FREED, President.

or N. E. HARDEMAN, Vice President.

Henderson, Tenn.
